

SK: I'm putting together a national tour and product line for 2006. I love taking this music to different kinds of groups and venues and will continue to look for opportunities to do that. The most fun thing for me is watching people who would probably never walk into a yoga center or temple and have an experience with chant or mantra. At the 9/11 service we played at, a friend of mine who worked in the firemen's office told me that she overheard the firemen being honored initially groaning and saying, "Oh ugh, chanting," when they first saw the program. After the service, they all went back to work that morning and a few hours later she heard them saying, "That chanting was the best thing on the whole program!" I love it when that happens.
